NEW PRODUCT GUIDE

NEW AV FOUNDATIONS® VERTICAL SERIES

Modern Meets Practical with Foundations Vertical Series

Sanus Foundations Vertical Series combines the storage capacity of a cabinet with the discreet look of a low-profile wall mount, creating a versatile, stylish piece that complements any décor.

MODELVF5023-B1
WEIGHT CAPACITY75 lbs./shelf
AVAILABLENOW

MODELVF5022-B1
WEIGHT CAPACITY75 lbs./shelf
AVAILABLENOW

Interchangeable black glass and wood back panels match any décor

Specially designed extruded aluminum brackets simplify installation by providing both lateral and vertical adjustment

Back panels are slightly offset from wall to easily conceal cables, surge protectors or wall outlets

Cable management channel easily routes cabling behind unit

Large, stable glass shelves are adjustable and hold up to 75 lbs. each

Adjustable, easy-to-install glass shelves

Extruded aluminum columns provide strength and rigidity

ProSet™ height and level adjustments ensure furniture is perfectly positioned, even after installation

Generous cable management channels on either side of column provide power and signal wire separation

NEW AV FOUNDATIONS® DESIGNER SERIES

The Latest Addition to the AV Foundations Family

The new Designer Series line was created exclusively for Sanus by Cramer Studios. Each piece features an innovative construction of mocha-finished hardwood, steel, and smoked tempered glass, giving AV gear an enclosed look without blocking infrared remote controls.

- Rich mocha-finished hardwood legs and smoked tempered-glass doors give AV gear an enclosed look without interfering with infrared remote controls
- Four steel back panels can be removed individually for easy maintenance and to allow for additional depth
- Spacious shelves are designed to accommodate even the largest AV gear
- Generous cable management channel conceals and routes wires and cables behind furniture
- Multi-adjustable hinges allow for smooth movement and perfect alignment of doors
- Unique convection cooling system allows heated air to escape through top as cooler air is drawn in through bottom

NEW VISIONMOUNT® TECHNOLOGY: CLICKFIT™

Introducing ClickFit™ Technology

ClickFit™ technology allows a surge protector and other accessories to attach easily to Sanus **LL22 and LT25** mounts, so they stay hidden yet easily accessible.

Open wall plate provides generous space for accessories with ClickFit™ compatibility to be positioned behind TV

Surge protectors and other accessories simply snap onto center of wall plate for concealed cabling

ClickFit™ system replaces wall outlet covers, allowing HDMI inputs and electrical outlets to be positioned directly behind the TV and easily clicked onto the mount

NEW VISIONMOUNT® TILTING MOUNT

Designed with the Custom Installer in Mind

The new LT25 tilting and LL22 low-profile mounts make installation a breeze. Exclusive ProSet™ height and level adjustments ensure TVs are always perfectly positioned, even after installation. And our innovative ClickFit™ technology allows a surge protector and other accessories to snap easily to the center of the mount, so they stay hidden yet easily accessible.

MODELLT25
TV SIZE RANGE30" – 60"

Meet the next VMPL

Introducing the Sanus VisionMount® LT25

In 2002, Sanus Systems revolutionized the flat-panel TV industry with the VMPL — the first universal wall mount. And now, with the innovative new LT25, we're doing it again. This ultra-light mount is constructed of extruded aluminum and features an open wall-plate design for easy cable management. Our exclusive, patented ProSet™ technology makes installation so easy, it sets a new industry standard. Take a look at the amazing features the LT25 offers, then visit www.sanus.com for more information.

Height and Level Adjustments

ProSet™ feature ensures TV is perfectly positioned, even after installation

Problem: Mounted TV is not aligned with walls, windows or furniture

Solution: Use ProSet™ to perfectly align TV without redrilling

ClickFit™ System

Surge suppressors and other accessories snap onto the mount and are hidden behind TV

Easy Hookup

ClickStand™ feature holds TV away from wall for easy cable maintenance, then clicks securely back onto wall

Fingertip Tilting

Virtual Axis™ tilting technology allows effortless viewing angle adjustment without tools
